BOSNIAN HOUSE

Bosnian House was the first to introduce authentic Bosnian cuisine & our world-famous Bosnian Kebabs in the UAE. When we first launched in 2015, at Global Village, Bosnian Kebabs were quite unknown. Within just a few months, our food was the most talked about and went on to win several awards.

Right from the get-go, we strongly believed in presenting Bosnia – its deep-rooted culture & delicious food. We embed the culture of Bosnia even in the ambience of the restaurant showcasing the culture and lifestyle of the olden-golden days of Bosnia.

Today, we are amongst the most famous restaurants in town owed to our vision of being unique in this classical F&B environment.
Last but not least, we are authentic. From our waiters, to our chefs, managers & the founder – all of us are from Bosnia and are here to provide you an authentic and delicious experience.

OUR FOOD

Bosnian Kebab, in Bosnian language called Ćevap is without a doubt, the most popular dish in Bosnian cuisine. These small pieces of rolled minced meat are carefully prepared and grilled on a special charcoal grill.
The best way to enjoy Bosnian Kebab is to eat the dish as soon as it comes from the grill – fresh and tasty. Often the traditional Bosnian Pita is added to Bosnian Kebab or the Bosnian Pita is even served as a main dish.
In Bosnia, this is an absolute favorite of the locals who enjoy Kebabs & Pita for lunch, dinner & even breakfast !

The trend in F&B over the last decades is to use more and more artificial ingredients, flavour enhancers and frozen meat. We do not follow these trends. Our Bosnian House secret recipes are old fashioned.
Only fresh and best cuts of meat can be used. The Somun has an ethereal pillowyness to it when it's fresh out of the oven. Ajvar is a delicious & authentic red pepper and eggplant sauce which one will find only in Bosnia and the Balkans. We make traditional, fresh and organic food just like they were made 300 years ago in Bosnia. Which is why once you've tried these mouth-watering kebabs, you can't help but want more !
